About This Game

Fujiwara Toru is a transfer student. At first glance he seems to be a generic, awkward teenager, but there is more to him than meets the eye.

Sangu academy has a tradition called Ren. each year student choose a different grade partner, and all non partnered people are alone. One other thing - there can be no same sex pairs.

The Gemma Februarii- the jewel of February- is the mysterious prize that each year the winner of the Ren competition will get to temporarily keep in their possession. It's mysterious charm was enough to bring 1st year student Rita Glengold all the way from Scotland to Japan.

Will Toru's talents help him find a partner? Can he win the battle of Ren and get the prize of Gemma Februarii?

Really fun and enjoyable. Everything was fine until I broke my spacebar playing this. Now I can't put spaces in between the words anymore. kt
hnxbye. tis a very neat game

get it

and the other ones.. Yes yes very nice, victorian dudes smooching each other as part of a revenge plot, 10/10 would unlock all h
scenes again. nice little time killer with good music. Better than I expected. I'm not finished yet but I'm enjoying it. I'm not a
huge fan of the text adventures but it was cheap and I was bored. It's worth the money and I'll be more open to text adventures
from now on.

Great plane, but want to install an ILS V DME guage and can't find the folder in SimObjects. Anyone have a clue?. Allen Hallway is a fun fast-paced game. You level your army with better training and weapons to kill the alien hordes. Game is fun and ill say worth \$5.. i would love to play with some one its kinda empty thats all. This was a BIG waste of my money! I didn't think about getting the game I really wanted but instead got this piece of The screen is too damn small, and all in all it's just boring. Literally a waste of money this game is. 1/10 stars for me.. I enjoyed the game. I'm not extremely good at solving puzzles so I appreciated the fact that I was able to solve most of the puzzles in this game without using the "cheat" button. And when I did get stuck there was a way out. The graphics were well done. The hidden objects were well hidden in most cases but not too difficult to find with some effort. I liked the game's theme based on voodoo. Music supported this atmosphere. I liked the plot so it was very disappointing when the game ended with a "To be continued". I've attempted to find the sequel but there doesn't appear to be one. I'm going to give the game a positive review because I did enjoy it over all but I have to say the fact that it doesn't have an definite follow-up was very disappointing.. The game **Kebab It Up! is a simple running game with many levels steadily increasing the difficulty. It becomes quite challenging yet fun. Though the repetitive music is annoying and the weird cutscenes inbetween make me feel like that there wasn't any effort put into that. Regardless of that, it is a pretty fun and enjoyable gaming experience.. Being a viking is badass... so this is cool**

Paying for nations that should have been released with the original game and not as DLC ... is stupid

Its a conflict. So I will rate it positive to give it credit for being a fun element. But CA should not be doing this to us. Arma 3 is an amazing military sandbox game. I would recommend this to everyone who is into military simulation. Scenario creation is my favourite part of the game!
